

## PRESS RELEASE

# Helexia secures a new €50 million funding tranche to accelerate the deployment of its solar projects across Europe

28 août 2025

Helexia, an international player in the energy transition and a subsidiary of Voltalia (Euronext Paris, ISIN code: FR0011995588), announces the raising of a second incremental tranche of its financing programme, amounting to €50 million. This operation strengthens the company's resources to develop its portfolio of photovoltaic projects at the European level.

This new incremental tranche enables Helexia to integrate 240 new rooftop and carport solar installations in operation across five European countries: France, Italy, Belgium, Portugal, and Spain. These assets add to a rapidly growing portfolio, illustrating Helexia's ambition to actively contribute to the decarbonisation of territories.

The operation was financed by La Banque Postale and Bpifrance, Helexia's long-standing partners, who thus reaffirm their confidence in the sustainable development strategy pursued by the company.

Helexia was supported by Finergreen (financial advisor), Linklaters (legal advisor), kiloWattsol (technical advisor), Ester Finance (interest rate advisor) and Marsh (insurance advisor).

**“This new funding marks a key milestone in our growth trajectory. It demonstrates the robustness of our model and the commitment of our partners alongside us to accelerate the energy transition in Europe.”**

— Benjamin Simonis, CEO, Helexia Group.

## About Helexia (helexia.group)

Helexia is a key player in the energy transition sector.

Founded in 2010, Helexia, a subsidiary of Voltalia (ISIN code Euronext Paris: FR0011995588), specialises in building energy performance and on-site photovoltaic energy production (rooftop and solar carports).

With nearly 500 employees operating internationally across 11 countries, Helexia has completed 1800 photovoltaic projects worldwide. Helexia supports its commercial and industrial clients in their energy efficiency projects and manages their sites.

Thanks to a broad range of services, Helexia ensures the definition of strategy as well as the execution of works, operation, monitoring, and maintenance of equipment.
